

| Connector | Pin Functions | Description | Colour |
| :---: | :---: | :---: | :---: |
| 1 | ESPI-CS2 | SPI chip select | Black / White |
| 2 | ESPI-MISO | SPI master input, slave output | Blue / White |
| 3 | ESPI-CLK | SPI serial clock | Red/ Black |
| 4 | ESPI-MOSI | SPI master output, slave input | Orange / Black |
| 5 | SDA | Serial data | Yellow / Black |
| 6 | SCL | Serial clock | White / Black |
| 7 | AIM2 | Alarm output 2 | White |
| 8 | ALM1 | Alarm output 1 | Yellow |
| 9 | IN1 | Analogue voltage input 1 (Maximum of 40 V dc wrt Ov) | Orange |
| 10 | IN2 | Analogue voltage input 2 (Maximum of 40 V dc wrt Ov) | Blue |
| 11 | OV | OV power supply input | Black |
| 12 | V+ | Positive power supply input ( $4 \mathrm{~V}-30 \mathrm{~V} \mathrm{~d} \mathrm{c}$ ) | Red |

## Further Information

Visit www.lascarelectronics.com/panelpilot for further information on the PanelPilot platform and to download a datasheet for your particular display. This will include specific information about pin configurations, wiring

## PaneIPiletili

 instructions and mounting method.
## Getting to know your display

## Panel Mounting Range

The SGD 24-M-IP can be fitted into panels of up to 10.5 mm deep. A rubber seal is included to seal the mounting hole when the 32 mm nut is fully tightened. Panel mounting hole cut-out is DIA 33 mm .

panel cut out dimensions

## Configuring your display

1 Visit www.lascarelectronics.com/software/ panelpilot-m to download PanelPilot M software onto your PC.
(2) Remove the rear panel to access the USB port and connect the device to your PC using the USB cable provided, a standard Mini USB cable. (Lascar part\# CABLE USB A-MF)
(3) Open up the software on your PC and follow step-by-step instructions for
 configuring your display.

What's in the box?

## Accessories

-CABLE IP-12W-RA

- Mini USB cable
- Twist lock cable connector
- Fixing kit
